

Effectively Destroys Viruses Bacteria & VOCS

100X
 more effective than other
 air sanitization
 technology such as UV

Utilize an intense plasma neutralization field to rapidly shatter biological microbes & VOCs within, releasing no ions or plasma into your airspace keeping it cleaner than ever before.

Plascide®
 True plasma technology
 Pathogens & VOC
 Neutralization

Comprehensive line of air sanitizer solutions:

- Standalone for rapid deployment
- Retrofit series for HVAC services

Validated & Verified By Independent Laboratories

Certified by:

- Centers for Disease Control of China (CDC)
- Société Générale de Surveillance (SGS)

Tested against a range of microbes & pathogens such as:

- Influenza Virus (H3N2)
- "Drug resistant" Staphylococcus Aureus (MRSA)

Certified effectiveness against air contaminants:

- Volatile Organic Compounds > 72%
- Bacteria > 97%

A Decade at the Vanguard of Indoor Air Quality Research & Technology

A-OneTech Limited commit to provide clean and safe air through technological innovation for a healthier, quality living future. Our globally patented Plascide® true plasma technology has achieved air sanitization power unmatched by alternate technologies. For companies demanding a healthy environment to ensure minimal risk of cross-infection for them and their customers, only I-SACA® systems powered by Plascide® can match and exceed their needs.

Proven & Tested Technology

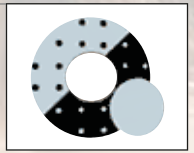

- Higher disinfection efficacy independently tested by microbiologist at The University of Hong Kong & The City University of Hong Kong
- Product tested by SGS to be effective against airborne diseases & volatile organic compounds (VOC)
- Air sanitization systems certified by CDC of China for use within hospitals & medical facilities

Awards

- "My Favourite Inventions for Quality Living Competition"
Organized by the Hong Kong Government
- "Hong Kong Eco-Products Award"
Organized by the Business Environment Council
- "Hong Kong Awards for Industries: Technological Achievement Award"
Organized by the Hong Kong Government

Mr. Tsang, JP, Financial Secretary of Hong Kong presenting the Award

Portfolio Highlights

- Hong Kong International Airport: Control Tower
- MTR Corporation: Low Wu & Lok Ma Chau Cross-Border Station
- MTR Corporation: Passenger Train Pilot Scheme
