

# AIR HALO<sup>®</sup>

Sanctuary

Professional Air Sanitiser utilising Plascide<sup>®</sup>  
Harnesses the power of Plasma Micro-Lightning

plascide

Certified  
**ANTI COVID-19**

One Pass  
Active Stage

Non-Filtering

Sleep Soundly

Sanitise  
in Seconds

Stay Healthy

99% Efficacy

~~OMICRON~~  
TRANSMISSION

Zap all Viruses,  
Bacteria & VOCs

# Harnessing the power of Micro-Lightning

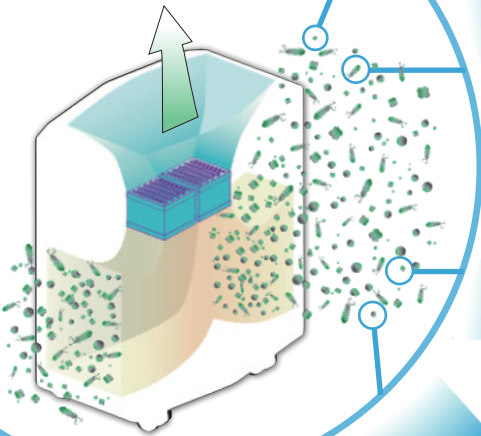

The fight against infections begin with your first breath of air

Air Halo Sanctuary utilises the power of micro-lightning to destroy germs and VOCs with a filter-less process for a healthier environment. Whether you are at home or at work, immerse in the clarity of nature with every breath.

Symmetrical  
Airflow Design

Eradicates viruses and other similar germs

Destroys airborne bacteria

Reduces Volatile Organic Compounds

Reduces airborne dust particles

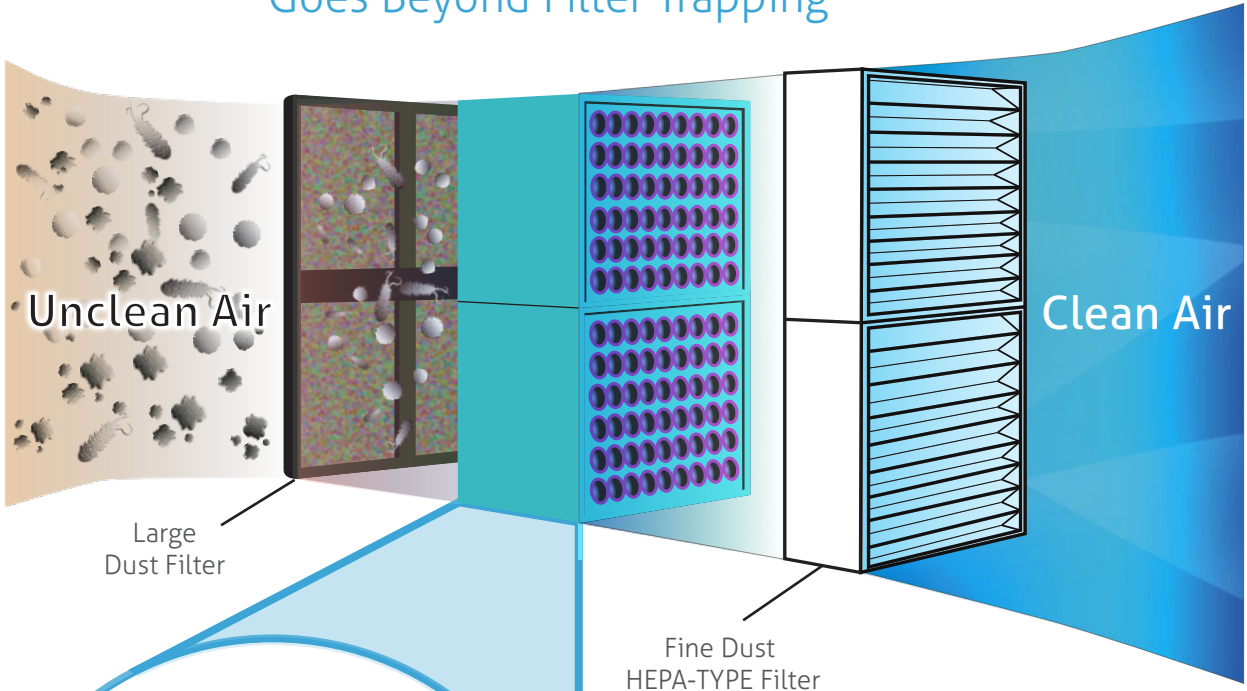

Defend your working and living airspace  
Destroy airborne germs before they even land

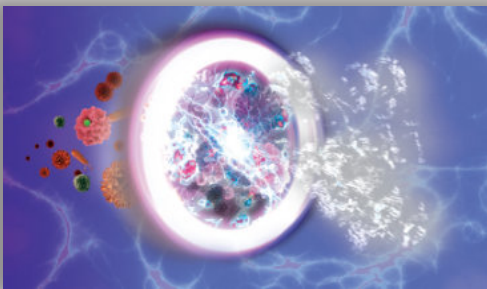

Utilising the worldwide patented Plascide technology  
Generating thousands of Micro-Lightnings to rapidly  
destroy Germs and VOCs. No ions or plasma released,  
Plascide technology keeping your airspace cleaner and  
safer then ever before.

## Actively Sanitise Within Goes Beyond Filter Trapping

### Micro-Lightning Plascide Technology

Rapidly & Effectively  
Destroy Germs  
& VOCs

Proven Anti-Germ Effectiveness  
validated by certified laboratories

Common viruses and contagious  
bacteria such as Influenza, MRSA,  
lung infections like Tuberculosis  
plus many other types.

Please visit our website at  
**[www.air-halo.com](http://www.air-halo.com)** to see our full list  
of germs, laboratory certificates  
and validations.

# AIR HALO<sup>®</sup> Sanctuary utilising Plascide<sup>®</sup> Technology

Mobile power on demand

Efficient Energy Usage

In-built Safety Features

Low Maintenance

## Features

### Plascide<sup>®</sup> Reactor

Micro-Lightning actively destroys germs with 99% sterilisation efficacy

### Passive Dust Removal

Large Dust Filter and Fine Dust HEPA-Type Filter

### Reduce VOCs

Reduce odours and total Volatile Organic Compounds in the air

### Adjustable Power Level

Boost Mode High power neutralisation for demanding protection  
Normal Mode Balanced power settings for general usage  
Calm Mode Gentle power settings for comforting requirements

### Adaptable Green Mode

Preset cycle of sanitisation power modes for optimal energy consumption

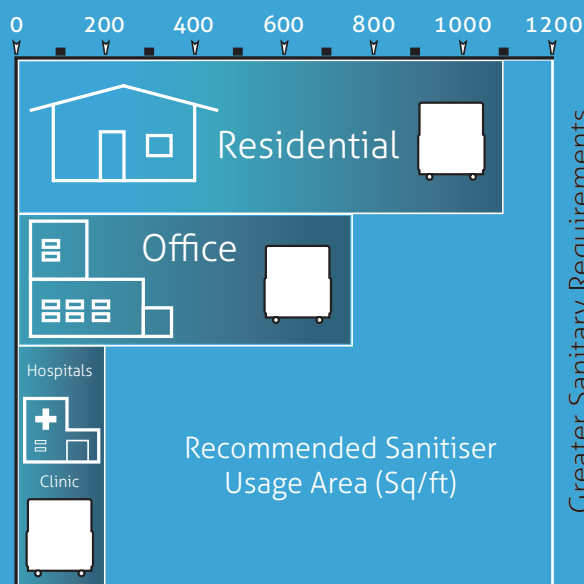

### Adjustable Timer

Automatically shut down unit with preset time for care free operation

## Specification

<b>Model</b>	AHS01
<b>Supply</b>	220V~240V@50Hz/60Hz*
<b>Dimensions</b>	56.6cm(l) x35.8cm(w) x66.3cm(h)
<b>Weight</b>	28 Kilograms
<b>Consumption</b>	175 Watts
<b>Audio Emission</b>	46 dB(A) - 54 dB(A)
<b>Usage Area</b>	200 Sq./ft - 1100 Sq./ft

\*Enquire for specification details, may change without notice.
